

TAUFIK SAHRIAN

FULLSTACK WEB
DEVELOPER

About Me

As someone who is skilled in creating websites, I can build websites from scratch according to the client's wishes. I have special skills in creating customized web sites, establishing CMS admin functions to manage content efficiently and effectively. My skills also include creating CRUDs, performing validation, as well as ensuring a high level of authentication in Laravel. I have all these abilities aimed at providing the best service for clients.
